Dear Mathew

I am writing to offer my congratulations on the outstanding level of achievement that you have attained in your studies for Term 1 2020

The School of Engineering and Technology commends the members of its student community who achieve a high level of academic performance. I am very pleased to advise that your academic performance places you in this category, since you received a High Distinction for: COIS12036 Human-Computer Interaction.

I am aware of the high level of commitment required to achieve this level of academic performance, and I encourage you to maintain your current high standard of academic performance in subsequent terms, and to give consideration to future enrolment in courses offered by CQUniversity.

Again, congratulations on your achievement and best wishes for your future studies.

Yours sincerely
